The author provided the proceedings of the fifteenth annual meeting of the North Carolina State Nurses’ Association in Fayetteville, North Carolina on May 22nd – 26th.

The author, Lola West, examines the exploitation of pupil nurses by hospitals looking to expand their profit margins by adding more nurses to the training schools and instituted the practice of sending them to care for patients outside of the hospital. This led to a decrease in the standard of practice among graduating nurses. Hospitals with commercial training schools and the physicians that employ the pupil nurses are to be dealt with, according to the author. The author calls for the raising of the standard of practice in training-schools, the debarring of unqualified nurses from practicing in the state and the informing of the laity of the sub-standard nursing is to take place.

The author, using Webster’s definition of a profession, examines if nursing “measures up to the requirements” of a “learned” profession. Unlike Mr. Flexner’s appeal that nursing is “second nature”, the author suggests that nursing is a science, based on a “body of organized and tested knowledge”.

The author examines the physical aspect of running a small hospital. A “small hospital” is defined as having the capacity of one-hundred beds or less. She highlights the personal involved in the hospitals management, like superintendants, pupil nurses, bookkeepers, and a graduate dietitian. The job of the superintendant is the main concern of the paper as it explains all in which is done by the occupation.

The author explains that the errors in mental and nervous nursing is due in part to the lack of knowledge of the nature, causes, and needs of these disorders. The author calls to standardize the meaning and nature of insanity while providing three main causes of the disease. The classifications of insanity are given along with descriptions of various types of insanity and the ways to treat a patient suffering with the specific type. The author suggests giving a patient with insanity an occupation to alleviate the mental suffering.

The author provides the proceedings of the sixteenth annual meeting of the North Carolina State Nurses’ Association held at Kingston, North Carolina at the Hotel Caswell on June 4th through the 7th.

The author provides a listing, developed by Mary L. Wyche, of the courses that leads to a B.S. and graduate degree in nursing.
